SECTION 4: FIRST AID MEASURES

GENERAL: In case of an accident or if you feel unwell, seek medical advice and show the label if possible.

INHALATION: May cause nausea, headache, dizziness and intoxication. Move exposed person to fresh air at once. Get medical attention if any discomfort continues.

INGESTION: May cause discomfort if swallowed. May cause nausea, headache, dizziness and intoxication. Rinse mouth thoroughly. Do not induce vomiting. Seek medical attention if symptoms persist.

SKIN CONTACT: Wash skin thoroughly with soap and water. Get medical attention if any discomfort continues.

EYE CONTACT: May irritate eyes. Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water or eye wash solution while lifting the eye lids. Continue to rinse for at least 15 minutes. Contact physician if irritation persists.

Most important symptoms and effects, both acute and delayed: In cases of ingestion, central nervous system depression

Indication of any immediate medical attention and special treatment needed: No specific symptoms associated with exposure to this substance

SECTION 5: FIRE-FIGHTING MEASURES

FIRE AND EXPLOSIVE PROPERTIES: Flammable - This product is flammable or explosive

Flash Point: 26 ℃

Flammable Limits: not determined

EXTINGUISHING MEDIA: Dry powder, alcohol resistant foam, carbon dioxide. Do not use Water(Citriodiol® is insoluble in water)

SPECIFIC HAZARDS: In case of fire, hazardous combustion gases may be formed:
Carbon monoxide (CO)

ADVICE FOR FIREFIGHTERS: Wear self-contained breathing apparatus and a chemical protective suit. Fight fire from a safe distance and stay upwind. Do not allow extinguishing water to reach ground water or sewage system.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS: Use personal protective equipment if required.

ENVIRONMENTAL PRECAUTIONS: Do not allow product to enter drains or ground water.

METHOD FOR CONTAINMENT AND CLEAN-UP:
Extuish all ignition sources. Avoid sparks, flames, heat & smoking. Ventilate. Stop leak if possible without risk. Absorb with sand or other inert absorbent. Collect in containers and seal securely. Containers with collected spillage must be properly labeled with correct contents and hazard symbol. Report spills to local health, safety and environmental authorities, as required.
SECTION 7: HANDLING AND STORAGE

HANDLING: Read entire label before using. Use strictly in accordance with label precautionary statements and directions. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practices. Wash hands after use.

STORAGE: Store in tightly closed original container in a dry, cool and well ventilated place. Keep away from heat, sparks and open flames. Do not store in direct sunlight. Protect from freezing.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Provide adequate ventilation to minimize the risk of inhalation of vapours.

PERSONAL PROTECTIVE EQUIPMENT (PPE):

Eye/face protection: Use safety glasses or eye protection tested and approved under appropriate government standards. If handling large amounts a face shield may be more suitable.

Respiratory Equipment: Under normal usage conditions respiratory protection will not be necessary. Protection may be required under exceptional circumstances, for example when excessive air contamination exists.
